Hyderabad-T.G  
  
[bairla-yeshwanth2006/](#)

Passionate and solution-oriented Computer Science student specializing in Artificial Intelligence and Machine Learning with a strong foundation in software development and data structures. Proficient in Java, Python, C++, and SQL, with proven experience in building real-world applications. Recognized for strong problemsolving skills and hands-on Java development.

## EXPERIENCE

## SKILLS

● Java

Java DeveloperCoding  
Missions

Learned and applied core Java concepts  
Participated in hands-on development tasks  
Participated in daily Agile stand-up meetings

● Python  
● SQL  
● DSA With C++  
● JDBC, Git  
● PostgreSQL, Eclipse

## PROJECTS

To-Do List Manager (Java + SQL)

- CRUD-based app with PostgreSQL & Java Swing
- Integrated date-based filtering and status tagging

## Personal Finance Management System (Java + MySQL)

- Build a system where users can input their income, expenses, and savings. Use a database to store transaction history and generate monthly reports.
- Desktop inventory app for rental shops

## AI Chatbot (Python + NLP)

- FAQ responder using NLTK & rule-based logic
- Targeted student queries for campus info
